About Us

AA Exports is a trusted name in the fruits and vegetables export industry, boasting an impressive 35 years of experience. Established in 1988, our commitment to excellence has made us a leader in the field.

One of our key strengths lies in our direct sourcing approach. We have established strong relationships with local farmers, allowing us to collect fresh produce directly from the source. This not only ensures the quality of our products but also supports local agriculture communities.

In addition to our network of farmers, we proudly own and operate banana farms in the fertile regions of Mettupalayam and Satyamangalam. This vertical integration in our supply chain guarantees that we have complete control over the quality and freshness of our bananas.

Quality is the cornerstone of our operations. We take immense pride in delivering products that meet the highest standards. Our rigorous quality control measures begin right at the farm and continue through every step of the export process, ensuring that only the finest fruits and vegetables reach our customers worldwide.

Choose AA Exports for your fruits and vegetables export needs, and experience the assurance of quality that comes from over three decades of expertise in the industry.
